

Rajeev Ranjan

☎ +91-8360426936 | ✉ rjranjan2112@gmail.com | 🔗 LinkedIn | 🌐 GitHub | 📍 Punjab, India

Skills

Programming Languages: JavaScript, TypeScript, Python, Java, C++, C
Frontend Technologies: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Framer Motion
Backend Technologies: Node.js, Express.js, RESTful APIs, Django, WebSockets, Socket.io
Database & Tools: MongoDB, PostgreSQL, MySQL, Git, GitHub, Postman, Docker
AI & LLMs: LangChain, RAG, ChromaDB, Gemini Models, Prompt Engineering
Core Concepts: Data Structures & Algorithms, OOP, System Design, DBMS, CN

Experience

Full Stack Developer Intern

Feb 2025 – Present

Wide Take

Remote

- Engineered a responsive marketing agency website using **React.js** and **Tailwind CSS** with smooth animations, achieving a **95+ PageSpeed score** and measurably higher user engagement.
- Developed **RESTful API** endpoints with **Node.js** and **Express.js**, implementing middleware for JWT authentication and request validation, reducing unauthorized access incidents by **100%**.
- Applied **SEO optimization** and server-side rendering strategies that cut load times by **40%**, elevating search visibility and directly improving conversion rates.

Freelance Frontend Developer

Feb 2025 – Present

Self-Employed

Remote

- Architected full-stack applications using the **MERN stack** with responsive design, cutting database query times by **35%** through indexing and query optimization.
- Shipped **5+ client projects** featuring secure JWT authentication, Stripe payment gateways, and real-time Socket.io functionality within tight delivery windows.
- Structured clean, modular codebases following **SOLID principles** and security best practices, reducing post-launch bug reports by over 30%.

Projects

Buzz 2.0 - Social Networking Platform | Node.js, Express.js, MongoDB, Socket.io, Cloundinary

- Designed an enterprise-grade social networking backend with a **modular service-oriented architecture**, powering real-time interactions via a hybrid **Socket.io** notification engine and **REST API** gateway.
- Formulated a **multi-factor feed discovery algorithm** using recency decay, engagement weighting (10x likes, 20x comments), and entropy seeding to deliver personalized content with **sub-millisecond broadcast latency**.
- Enforced a **privacy-first follow workflow** with granular account controls, FollowRequest entity state management, and Cloundinary-backed media uploads supporting **memory-buffer streaming** at scale.

Converge-X - 2D Virtual Meeting Platform | React.js, Node.js, WebRTC, Socket.io, MongoDB

- Constructed an immersive video conferencing platform with a **2D game mode arena** powered by **60fps HTML5 Canvas** rendering, velocity-based player prediction, and proximity-triggered spatial audio zones.
- Integrated **WebRTC peer-to-peer** video/audio at **720p/60fps** with adaptive bitrate, plus real-time collaborative whiteboard, live polls, and **AI-generated meeting notes** with action-item extraction.
- Established a **host-controlled admission system** with JWT authentication, granular permissions, and a Socket.io signaling layer supporting **simultaneous multi-room sessions** with under 100ms video latency.

Resume-AI - AI Resume Analyzer | Next.js, Gemini API, Python, Clerk, PostgreSQL

- Launched an AI-powered resume analyzer leveraging **Gemini API** and Python to surface targeted, role-specific content suggestions that boosted user profile quality scores by an average of **40%**.
- Wired **Clerk authentication** to a **PostgreSQL** database, enabling authenticated users to create, customize, and preview resumes in real time with zero-latency UI updates.
- Deployed **PDF export** functionality and a fully responsive interface, scaling to **1,000+ resume generations** with consistently positive user feedback and zero critical post-launch defects.

Education

Bachelor of Technology in Computer Science Engineering

Aug 2023 – Present

Lovely Professional University, Phagwara, Punjab

CGPA: 8.06

Achievements

CodeClash 2.0 Finalist (2025): Top 10 among 20K+ teams for AI healthcare platform, presented at Google Gurugram final round.

Trinetra Web Hackathon Finalist (2024): Top 10 recognition for AI-powered mental health chatbot.
